

# Nata Watts

*"Her decorative compositions are light and elegant, yet dramatic at the same time.*

*She skillfully combines elements of fantasy and reality in her work. Her pieces are not only beautiful, but also always filled with great meaning. She is a master of abstract-lyrical composition. Her paintings are partly abstract, partly figurative - they are unique pictorial depictions of various journeys through time and space. The fantastic plots are imbued with a romantic feeling. The form created by the artist arises at the border between these styles, and leaves the viewer with many possibilities for admiring their own associations.*

*It is a bright, emotionally unrestrained art."*
